

Distribution Ring

Aluminum D-Ring

Cable management solutions for data centers, commercial low-voltage applications and network cable pathways

Features:

- Die cast aluminum body for reliable performance and durability in harsh environments
- Rounded, smooth edges prevent damage to cable jacket
- Suitable for server rooms, data centers, and back office
- (4) mounting holes sized for #10 screws
- Available in 2", 3" and 5" sizes

Application:

- Used to securely hold all types of insulated cable on walls, ceilings, racks or communication boards

Installation:

- Support multiple cable runs on walls, ceilings, communication boards or racks, in horizontal or vertical orientations
