

Winnie Industries
MANUFACTURER OF FASTENING SUPPORTS

Field Favorites

Life Safety

Winnie Industries makes life safety unmistakable—fire alarm and emergency circuits that stand out from high-rises to heavy industry

■ Easy Identification

Vibrant red finish clearly distinguishes fire circuit pathways

■ Keeps Life Safety Pathways Uncluttered

Dedicated red supports separate emergency circuits from general wiring

■ Protects Signal Integrity

Minimizes risk of cable damage or misrouting

■ Built for Demanding Environments

Heavy-duty steel construction stands up to demanding installs

■ Versatile Across Environments

Ideal for hospitals, schools, office buildings, industrial sites, and residential complexes

■ Meets Industry Standards

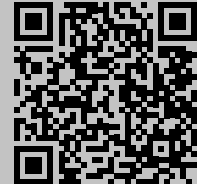

Complies with industry codes and standards

■ Simplifies System Maintenance

Prevents misrouting or misidentification during upgrades or inspections

■ Save Install Time & Labor Cost

No assembly required—every configuration is ready for installation straight from the box

Red-Coded Supports for Life Safety Circuits

Make emergency circuits impossible to miss—visually distinct, install-ready, and built for compliance across every environment, from MDUs to industrial zones

- Red-coded supports and junction boxes make fire alarm and emergency pathways instantly visible
- Red finish helps prevent cross-connection errors and speeds up AHJ sign-off
- Offered in multiple sizes and layouts to suit varied install conditions

Red T Box™ Square Electrical Junction Box

- Easier wire pulls with rapid prefab integration, streamlining workflows, reducing onsite labor, and driving smarter jobsite performance
- Provides ample room for complex wiring configurations, deep-profile apparatus, and future additions

Part #	Size	Capacity	Knockouts	Color	Unit Pkg
WTBOX232RD	4"	43 cu. in.	(8) 1/2" knockouts (6) 1/2" - 3/4" knockouts	Red	20
WTBOX257RD	4-11/16"	60 cu. in.	(2) 1"-3/4" knockouts (12) 3/4" - 1/2" knockouts	Red	10

Designed to support fast prefab applications

Red J Hook

- Install directly to ceiling or wall using anchor
- Attach to threaded rod, strut, or beam using 1/4-20 structural hardware, clamps, or spring nuts
- Notched to easily collapse to 90° angle allowing for ceiling mount

Part #	Size	Hole Size	Color	Unit Pkg
WJH12RD*	3/4"	1/4"	Red	100
WJH21RD*	1-5/16"	1/4"	Red	100
WJH32RD*	2"	1/4"	Red	100
WJH64RD*	4"	1/4"	Red	25

*AC with 90° Angle Clip *ACPBC with Pressed Beam Clamp, *ACSSBC with Spring Steel Beam Clamp, *W with Multi-Functional Clip

20-plus mounting configurations available

Red Bridle Ring

- Secures to 1/4-20 threaded structural attachments, clamps, or anchors for installation to steel beams, threaded rod or concrete, masonry, or metal surfaces
- Load capacity to 17lbs

Part #	Size	Mounting	Color	Unit Pkg
WBR4T125RD*	1-1/4"	1/4-20 Thread	Red	100
WBR4T200RD*	2"	1/4-20 Thread	Red	100
WBR125SHORTRD	1-1/4"	1/4-20 Thread	Red	100
WBR200SHORTRD	2"	1/4-20 Thread	Red	100
WBR125WSRD	1-1/4"	Wood Screw	Red	100
WBR200WSRD	2"	Wood Screw	Red	100

*AC with 90° Angle Clip *PBC with Pressed Beam Clamp, *SSBC with Spring Steel Beam Clamp, *W34 with Multi-Functional Clip

10-plus mounting configurations available

Stocked and supported by

Durable red finish ensures clear pathway identification without unreliable clips or stickers
