

Winnie Industries

MANUFACTURER OF FASTENING SUPPORTS

Deep Electrical Junction Box

Eliminate the need for bends or offsets by allowing conduit runs to enter straight into the box

US Patent

- Galvanized steel construction
- Welded design for strength and ease of use
- Extra deep for added volume and wire bending space
- Double gang
- Access to side knockouts in all directions

- |Save on labor costs and installation time by eliminating conduit bends|
- |Increased capacity accommodates large devices in industrial applications|
- |Eliminates the need for extension rings to accommodate deep devices|
- |More space than normal 4-11/16" square 2-1/8" deep electrical box|
